CANNED FRUIT PRICES IN WEST GERMANY, THE UNITED KINGDOM, AND THE NETHERLANDS

In April, German sources reported that the first arrivals of the new pack of South African canned peaches and apricots entered distribution channels at favorable prices and conditions. Greek peaches were available only in small lots and on short delivery terms. Some U.S. fruit cocktail was sold, despite high prices and stiff Italian competition. U.S. Michigan sour cherries sold well but were not as abundant as last year. U.S. exports of canned fruit to West Germany in January-April 1976 were larger than in the same period in 1975 for apricots, fruit cocktail, peaches, pears, and pineapples but were lower for cherries and orange juice. January-April 1976 exports, in cases 1/, with January-April 1975 data in parentheses, were: Apricots 552 (362), cherries other than maraschino 7,294 (19,390), fruit cocktail 28,832 (12,990), peaches 55,632 (34,147), pears 727 (347), pineapple 41,717 (35,152). Exports of canned, single-strength orange juice, in gallons, were 293,266 (333,711).

U.S. exports of canned fruit to the United Kingdom in the period January-April 1976 gained on year-earlier figures for cherries, but exports sagged for apricots, fruit cocktail, peaches, pears, pineapples, and orange juice. January-April 1976 exports compared with January-April 1975 exports, in cases 1/, were: Apricots 147 (418), cherries 2,680 (1,154), fruit cocktail 15,067 (21,943), peaches 2,560 (11,530), pears 171 (1,779), pineapple 2,256 (6,698). Orange juice exports, in gallons 5,954 (10,512).

U.S. exports of canned fruits to the Netherlands in the first 4 months of 1976 topped the level of the same period of 1975 for apricots, cherries other than maraschino, fruit cocktail, and pears. Exports of peaches, pineapple and orange juice slipped from year-earlier levels. January-April exports, in cases 1/, were: Apricots 583 (385), cherries 5,314 (876), fruit cocktail 23,085 (15,799), peaches 23,826 (31,045), pears 744 (644), pineapple 5,215 (6,559). Orange juice exports, in gallons, were 7,459 (61,113).

1/ Cases of 24/2½'s, 45-pound basis.
